

Contribution to work – Group 17

1. Karan Mahendra Singh (18192726) [Contributed around: 40%]
 - Worked on two datasets (Foodborne disease outbreaks and Adult mortality)
 - Performed data cleaning, processing and storing on relevant databases such as MongoDB and PostgreSQL
 - Thereafter, created visualizations relevant to the above two datasets
 - Assisted in writing sections of report directly related to the datasets
2. Shreyas Suhas Yeolekar (18182674) [Contributed around: 40%]
 - Performed extraction and cleaning on two datasets (Zomato API data and Alcohol Consumption)
 - Loaded the datasets on relevant databases (MongoDB and PostgreSQL)
 - Finally, created visualizations and analysis on the above-mentioned data
 - Assisted in writing sections of report directly related to the datasets
3. Richard Saldanha (18183034) [Contributed around: 15 to 20%]
 - Made power point presentation and project report
 - Assisted in finding datasets and devising research questions
 - Did the literature review of the project entirely
 - Made the process flow diagrams
